and Liberal, Against Making Any Fur-ther Concessions in the Pace of What They Term the President's Thren's,

WASHINGTON, Aug. 22.-Acting Secretary Spaulding of the Treasury Department has issued circulars instructing the Collectors of Customs under the act relating to tells on Canadian vessels at the St. Mary's Canal. which provides that money shall be collected under regulations to be established by the Secretary of the Treasury. After reciting the law and the President's proclamation. Mr. Spaulding directs the collectors as follows:

On the passage through the canal at St. Mary's Falls, in your district, from and after the 1st proximo, of any vessel with cargo, you will exact tolls as provided for above. But no tolls will be charged or collected as regards freight or passengers carried to and landed at Ogdensburg, or any port west of Ogdensburg and south of a line drawn from the northern boundary of the State of New York through the St. Lawrence River, the Great Lakes and their connecting channels to the northern boundary of the State of Minnesota.

"The master of every such vessel will be required to furnish a sworn statement, substantially in the form of a manifest, showing the date, the name of the vessel, its destination. the name of the master, the number of the passengers, and the number of tons and the kind of merchandise carried. If the destination be such as to exempt the vessel from the tells you will make entry of the fact in a book. with columns exhibiting the particulars specifled in the muster's statement: also the amounts chargeable and the amounts paid.

"Un the next arrival of the vessel you will exact the tolls, unless on or before that time, and within one month from her passage through the canal, there shall be furnished to you proof of the actual delivery of the cargo and passengers at some port or place within the limits of the United States above specified. Such proof will consist of the certificate of the Collector of Customs at the port of destination showing the entry of the rescal and the landing of the merchandise and passengers there. A form of certificate is provided for collectors by the department. Should the prescribed evidence not be furnished within one month after the passage of the canal by the vessel, you will report the facts to the department, to the end that measures may be taken by it for the recovery of the amount due.

"The tolis collected will be deposited as miscellaneous receipts and included in a special account forwarded to the First Auditor. In which the total amount received each month will be credited and the amount deposited debited, and will be entered on a stub book with other cellections as 'tells for passage of canadian vessels through St. Mary's Falls Canal."

An abstract will accompany such account Such proof will consist of the certificate of the

Canadian vessels through St. Mary's Falls Canal.

An abstract will accompany each account showing the name of the vessel and of the master, the number of tons of merchandise, the date of the master's statement, and the date of the payment, Receipts for the amounts paid will be given to the payers.

The chief later of enforcing the President's preclamation of retaliation, should it go into effect on Sept. 1 will fall upon Elector B. Howard, the Collector of Customs at Marquette, on Lake Superior, Mich. He is an experienced officer, who served for some time as deputy before being appointed Collector. The amount of commerce is very considerable. More than 500,000 tons of wheat passed through St. Mary's Canal last year, and 254.000 tons of flour and 75,000 tons of grain other than wheat. Of iron ore there were 4,404,000 tons, and coal 1,804,000 tons. In fact, the tennage and traffic that goes through the St. Mary's Canal is greater than that passing through the Suez Canal in Egypt. Nearly 5,000 cometwies vessels and 718 foreign vessels were entered at Marquette during the year 1891.

CANADIAN OPINION.

The Dominton Newspapers Print Some Caustle Comments,

OTTAWA, Aug. 22.-The Citizen (Government organ) says: "If Canadian interests are to be made the periodical sport of the political par-ties in the United States, it is now time that we resolved to supply the means for their fail to appreciate. Let us plainly assert our determination to do with our own as best suits our own interests. The Washington treaty has been pretty well denuded of every vestige of advantage to this country. It stands simply as a skeleton, which our neighbors are equally ready to trot out in the hope of terrorfzing us or to consider as dead and buried for good. The clearly best thing to do do would be to take steps at once for its formal abrogation and so to have done with it."

TORONTO, Aug. 22.-The Empire (Government organ) Ottawa despatch says that the Dominion Government ought without delay to give the requisite two years' notice for the abrogation of Article 27 of the treaty of Washington. Some lawyers, however, affirm that the Canadian Government could forthwith impose heavy tolls on American vessels passing through the Welland and St. Lawrence canals. disregarding the treaty entirely.

The Empire says: "We doubt whether public opinion in-Canada will approve of any further concession in this matter in order to secure an amicable arrangement with a country which seems to have as little regard for international seems to have as little regard for international comity as for solomn treaty engagements. There will be a tendency to think that the Government ought in a dignified manner to hold on to the course they have announced, even if they have for the balance of the season to make some arrangement to reimburse the Canadian shippers who have entered into contracts which this 'retailation' will disarrange, rather than yield to the suggestion now made."

canadian supports who have entered indoornates which this 'retaliation' will disarrange, rather than yield to the suggestion now made."

The Globe (Liberal) says: "An attempt to strike this blow at tanadian commerce is warranted neither by the present attitude of our Ministers nor by the whole course of international dealing with reference to canals and waterways. Canada's expenditure under this head has been vasily greater than that of her neighbor. She has borne far more than her law the state of the cost of completing the hobbe system of navigation from the Northwest to the Atlantic. With the single exception of relate, if that be an exception, she has thrown her canals open to Americans and Canadians upon enal terms, which her shippers have empoyed no benefit whatever from the American Mate canals. It would be folly to deny that the step which is to be fasch will nurt an fingent and canadian interest; but to make any forther concession in the fasce of this threat would be foo great a sacriflee of our dignity and self-respect."

The Maditindependent says: "No doubt an intimation from the Ortawa Government that next year the relate would surely go defermined the President not to resort to an extreme policy. As it is, the United States simply meets our toll with a likefoll. As the American toll is low and does not come into operation until the first of next month, it will not be a very serious matter; and, as it will go off altogother when our retate ceases, as cosse it will at the end of this scaron, it need not trouble us much. The difficulty in the shape it has assumed, is happily not going to lead to reprisals and to it feeling."

The Winde Conservative) says: "The President of the United States has, at the order of Congress, close the Bault Sto Marie Canal to Canadian vessels. Our ships most pay a toll of 20 cents a ton. We awarest the penality. While we have to pay it we will. We accept this hostile legislation as the warmest trioute our neighbor rivals can pay us. It is their testimony that Canada is a

God Canada can live without the United States."

MONTERAL. Aug. 22.—President Harrison's proclamation was a surprise. It was generally feared that if the President decided to put restaliating regulations into force, he would take advantage of the full powers conferred upon him by the act of Congress by placing a toil of \$2 a ton and \$5 per passenger on Canadian vessels passing through the Sault Canal. The fact that he simply meets the Canadian toil with a like toil has tended to prevent any great excitement. That the tax is a serious one merchants and shippers do not attempt to deny, for not only will it to left by Montreai, kingston, and the shinging interests generally, but it means a good deal of difference to the province of Manitoba and the Northwest. Some of those in the trade differ as to the amount of damage that will be done to the commerce of this country, but that damage will result all agree.

For instance, Manitoba grain coming to Montreai will have to pay the tax. The volume of grain coming from Duluth is large, and the Canadian inland and occan craft are handicapped just to the extent of the new tax. The tax will, in the orinion of many, divert a large amount of Canadian trade to Buffalo, but it will not affect trade with Chicago at all.

Accused of Hugging Girls.

The Western millers will all he affected by the new tax, for all flour coming through the sault Canal will he taxed 20 cents per ton. It will also affect the tanadian Pacific Hailway hoats running hetween Port Arthur and Owen bound, for the cargoes of these will be charged been bound, for the cargoes of these will be charged been both ways. All the coal that goes into the

province of Manitoba by boat will be taxed 20 cents more, and indeed cargo of every kind that reaches here by water. While the Canadian Pacific will be hurt in its steamship line, it is expected that the company will more than make this loss up on its rail route. The company will now have a margin of just 20 cents per ton in favor of its all-rail route, and grain shipments over the line are likely to increase.

M'MANUS LOSES HES SHIELD.

Agent Patrick McManus of the Gerry society was relieved of his badge on Friday last by order of President Gerry. No reason was given for the dismissal of the officer, as far as can be ascertained, and the officers of the society say that McManus "resigned." He has been in bac odor with his superiors ever since he arrested street, on the evening of July 15, and his form or reputation, as brought out in the Jefferson Market Court during Mrs. Wood's examina tion, did not serve to help him in the eyes of

Market Court during Mrs. Wood's examination, did not serve to help him in the eyes of his employers. Superintendent Jenkins declined yesterday to say whother atcManus had been dismissed.

"That is a matter which does not come under my authority." he said. "Mr. Gerry notified mo to take the man's shield and keys, and that is all I know about it."

McManus entered the employ of the Gerry society about six months ago. He is a young man, and had formerly been at work in his brother's saloon. On the night of Friday, July 15, he saw Mrs. Hattig Wood and her 5-year-old boy walking along Seventh avenue. Mrs. Wood is young and good looking, and is the wife of F. E. Wood, a livery stable keefer in West Thirty-ninth street, near the Metropolitan Opera House. She says she was walting for her husband. McManus says he believed she was a woman of ill repute, and that she had no right to the child. He followed her for sweeral blocks, and finally when she asked him to chase a dog away that was frightening the boy he arrested her, and she was locked up for the night in the West Thirtieth street, police station. The boy was taken by McManus to the society's house. When the case came up in the Jefferson Market Police Court McManus toil a very different street police station. Then they came to this city. At midnight he rang the door bell at 144 Chrystie street and asked for a room. His request was refused, she says. Then he took her to a house in Delancey street, but he couldn't get in there either. Policeman Henkilday of the Edridge street station had been watching the man and girl and arrested them. At the station house the man described himself as August Barto, 40 years old, of 420 Franklin street. Brooklyn. There is no 429 Franklin street in Brooklyn. Early resterday morning his wife was awakened, and beheld Axolson dressed and shout to drink from a tumbler. She asked, "What have you got there?" "Poison," he replied as he dashed the potion off, and, uttering a yell, he ran out of the room. She followed him as he ran toward the river. Axelson fell on the very edge of the emi ankment, and sank back a corpse in his wife's arms.

The exact nature of the poison he took is not known. It is supposed to have been sulphuric acid of unusual strength.

East Orange, Aug. 22 .- James Coleman. Timothy Drudy's 11-year-old son, a billy goat, terday afternoon in Central avenue. West Orange. The dog tackled the goat while it was quietly grazing in a vacant lot. Coleman, who owned the dog, attempted to separate the two animals, when Drudy's son appeared upon the scene and took a hand in the affair. The goat got badly tangled up in the rope with which it was tied, and in the squabble that ensued Coleman jumped on young Drudy and gave him a severe bonnuelling. The little fellow's limbs were badly bruised and his head was cut. In the mean time both the dog and the goat got loose and ran away. Policeman Heslin attempted to arrest Coleman, but he nicked up two bricks and threatened the policeman's life. He was finally lodged in the police station. This morning he was fined \$10 and costs, in default of which he was fined \$10 and costs, in default of which he was remanded to nwait the result of young Drudy's innries. CLEVELAND, Aug. 22.-The whereabouts of David R. Paige, as already reported in Tax Sun, are now known. Paige is at present in Rio de Janeiro, Brazil, and he will stay there permanently. Mrs. Paige will soon start for permanently. Mrs. Paige will soon start for South America to join him. David has prepared a fuzziness home in the capital of Brazil, and it is apparent that he has enough to keep himself and wife comfortably far from the crowd of creditors and others who would like to interview him concerning certain business matters.

Mrs. Paige for the present is in Chicago, but will soon join her husband in the new republic where European Northern capitat to the extent of millions is being expended in the development of the country. Much railroad building is being done in Brazil, and Paigo will continuo to take contracts.

she deliberately waded through deep grass and waterillies in Auchmoody's pond, a short distance from her home, and threw herself down in the water, where she was found lying lifeless at the bottom. Her husband, Asa Deyo, died last January, leaving her comfortaly situated. The farm hands and servant, noticing that Mrs. Deyo was not about the house, and she having acted strangely recently, they hegan to search for her, and found her? ody in the pond. She was about 50 years of age and connected with some of the leading families in the county. She imagined that poverty was her down, and because of this hallucination she ended her life.

the Hebrew Juventle Asylum. Nine-year-old Jakey Wolf. who is only three and a half foot tall, was sent yesterday to the Hebrew Juvenile Asylum because he had stolen two clay pipes, and because he was a roving citizen, troublesome, if not dangerous, to society. Jakey lived with his father and mother and his two bad brothers, Harry and William, 14 and 11 years old, respectively, at 101 Walker street. Alexander Sagui has a cigar store on the ground floor. A \$10 bill was stolen Saturday from the store. Suguicalculated that the thiel would come around again, and he was on the lookout for him. He was sitting in the store at 0:30 e'clock Sunday morning, when he saw Jakov slip up to a window, break a nane of glass, and crawl into the store. Jakey stopped to nick up two pipes, and then made for the till. Before he could open it Sagni caught him and turned him over to a big polleeman. Jakey was turned over to Agent Gormley of the Gerry Society, who learned that the little fellow was considered a bad boy in his neighborhood, and that his two brothers had been arrested several times for stealing door knobs and whips. Each time the complainant refused to prosecute and the loys escaped. To check Jakey in time Agent Gormley asked Justice Grady to commit him. The parents pleaded with Justice Grady to let the loy go, but he sent Jakey to the Hebrew Juvenile Asylum.

Then Jakey went with his parents. His mother went out and cought three big doughnuts for him and he dried his tears. Then his mother Rissed him twice. As she left the court room Jakey swung his dirty lare feet a triffe faster over the edge of the chair, but kept his eves on the two remaining doughnuts he held in his hand. then made for the till. PLANS FOR AUTUMN COACHING.

Mr. Taller and Mr. Biggins Will Send the Rapid Over a Fiftern-mile Course, Baily. Mr. Suffern Tailer, who recently arrived from Europe, and Mr. Eugene Higgins have completed arrangements for a coaching season in this city, beginning Oct. 1.

The coach Rapid will make daily trips from the Windsor Hotel to the Morris Park races and to the West Chester Country Club. Luncheon will be served to the coaching party at both the race track and the club house. The Rapid is painted after the style of the royal mail coaches, in gay French colors. It has a vermilion body, with red running gear. It is expected that ten miles an hour will be covered, including changes. The route will be from the Windsor Hatel. Through Central Park to Seventy-second street, and from there to the Riverside Drive. At Claremont the horses will be changed. The coach will proceed to High Bridge, and take the narrow macadamized road to Jerome Park. This makes the trip one of fifteen miles, and the coach is expected to cover it in an hour and a half.

Special parties will not be permitted to monopolize the coach. The first to apply will be the first to be registered on the book. vermilion body, with red running gear. It is
